Subject: Presentation tonight on body camera video
Attachments: Deputy Chief Travis Glampe.vcf

Commissioners,

I apologize, but I have had something come up that will require me to be away from the office this evening. As such, I will not be able to attend the PCOC meeting tonight. Commander Chris Granger will be taking my place and will be introducing the three body camera videos that you will be presenting. As a veteran officer on the department, Commander Granger will be able to provide the same context to the videos that I would provide.

As a brief background to the videos, these videos appear to have come from the MPR website and are not the videos posted on the MPD website. They were part of a data request that MPR made last year. We provided the videos without any redaction or editing. Any redacting or editing you see on the video, was not done by MPD, so we cannot comment as to the reason behind the editing. I can state that after watching the videos, they accurately portray the interaction with the citizens. I can also state that we do appreciate that the person's face and identity are blurred, as we are not allowed to do so in public data requests.

I also want to thank you for the public listening sessions on body cameras. I can't wait to get your report and hear the feedback.

You are welcome to contact me at any time to discuss body cameras, these videos discussed above, or any other topic.

Thanks again.
