Background/Analysis:

The Minnesota Judicial Branch has a new electronic access application available for government partners: New Minnesota Government Access ("New MGA"). New MGA provides government subscriber agencies remote access to court records and court documents. The access will include statewide public case records and statewide public case documents.

The New MGA is being offered to Minneapolis because it is part of the 11-county eCourtMN eFiling/eService pilot court initiative.

There is no cost to participate in this statewide New MGA eCourtMN Initiative.
