

T&PW - Your Committee, having under consideration the Protected Bikeway Update to the Minneapolis Bicycle Master Plan, now recommends:

- a) Approval of the Protected Bikeway Update, as amended to move Project 19A, Washington Ave (5th Ave S to 19th Ave S), from Tier 3 to Tier 1.
- b) Approval of a staff direction that Public Works staff conduct a bicycle and pedestrian facility winter maintenance evaluation to be piloted in the winter of 2015-2016. The evaluation should include examples of all bicycle facility types including off-street trails, protected bikeways, on-street bike lanes, and bicycle boulevards, and also include sidewalk snow clearance on pedestrian priority corridors. The results of this evaluation will help better define budget needs and practices for bicycle and pedestrian facilities.

Certified as an official action of the City Council:
