

# Minneapolis 2040

## Mission Statement

***Minneapolis 2040: An inspiring City growing in equity, health, and opportunity.***

## Comprehensive Plan Purpose

The update to the City's Comprehensive Plan will shape citywide policies and priorities, working toward a unified vision for Minneapolis in 2040. The Plan will address and plan for the city's role in regional systems. Planning comprehensively provides an opportunity to consider a broad range of topics relevant to our goals, and in service to our core values, with a focus on establishing a sound foundation for the regulation and guidance of public and private investment in the built, natural, and economic environment.

## Comprehensive Plan Values

Every four years the City Council adopts its [vision, values, goals, and strategic directions](#). The statements below reflect the Minneapolis Values identified as part of the 2014 City Goals process, adapted for the purposes of guiding the update to the comprehensive plan. City staff will take these into account during their work of proposing draft comprehensive plan policies, and will weave these themes consistently throughout the plan framework.

### **GROWTH AND VITALITY**

Plan for more people, businesses, housing and jobs in the city, and accommodate growth in appropriate locations while enhancing community character.

### **LIVABILITY AND CONNECTEDNESS**

Ensure that all neighborhoods in Minneapolis are safe, green, healthy and inviting, affordable, served by connected and accessible systems and amenities.

### **ECONOMIC COMPETITIVENESS**

Strengthen economic competitiveness to fuel growth and economic sustainability, while supporting public and private sector innovation.

### **HEALTH AND RESILIENCE**

Move beyond mitigation and begin building resiliency to climate changes and impacts, with sustainable social and environmental systems.

### **EQUITY AND RACIAL JUSTICE**

Promote fair and just opportunities and outcomes for all people, and work to eliminate the gaps between white people and people of color.

### **GOOD GOVERNMENT**

Develop and maintain a fiscally sustainable government that works for everyone, with fair and transparent public systems.
