**Subject:**

Approval of a contract for traffic control services for the new US Bank Stadium

**Description:**

Requesting permission for the Department of Regulatory Services to enter into a contract with SMG for traffic control services for the new US Bank Stadium to cover Vikings games and other large events at the facility, for the duration of one year and/or not to exceed \$100,000.

**Previous Actions:**

RESOLUTION 2014R-262

---

**Background/Analysis:**

Historically, the Department of Regulatory Services has provided game day services for the Vikings and other events at the HHH Metrodome and TCF Bank Stadium through a contract with the University of Minnesota. With the opening of US Bank Stadium, a new contract for services is needed. The proposed contract replaces the previous contract with University of Minnesota for traffic control services for Vikings Games. This contract will provide traffic control services under a new transportation plan for Vikings games and other large events at the new stadium.

**Financial Review:**

**No financial impact.**
