

# Bloomington Ave S Bikeway

Minnehaha Pkwy - 54th St E

## Project Background

In 2017, Minneapolis Public Works plans to sealcoat Bloomington Ave S between Minnehaha Pkwy and 54th St E. This segment of Bloomington Ave S is identified in the Minneapolis Bicycle Master Plan and the sealcoat project provides a logical time to implement the planned bikeway.

A bikeway on Bloomington Ave S would connect to existing bike facilities on 54th St E and the Minnehaha Parkway trail. It would also indirectly serve bicyclists utilizing the new intercity trail, which runs from West Lake Nokomis Parkway into Richfield.

## Parking Changes are Proposed

There is currently parking on both sides of Bloomington Ave S. In order to install dedicated bike lanes in both north and south directions, parking must be removed on one side of the street.

## Existing - typical
