Department of Regulatory Services

2016 Report

Dedicated to strengthening communities by partnering with residents, neighborhoods and businesses to make the city safer, healthier and more inviting for all, Regulatory Services is responsible for Animal Care & Control, Fire Inspection Services, Housing Inspection Services (including the Problem Properties Unit), as well as Code Compliance and Traffic Control.

Data collection, cleaning, and reporting are at the core of Regulatory Services' work, providing us with a strong foundation on which to build a culture of data-driven decision making, transparency, and resident engagement. The Department strengthens the city by:

- Partnering with residents, organizations, and stakeholders;
- Analyzing data to effectively align our activities with the city's strategic priorities, identify trends, and effectively deploy resources; and
- Communicating results in meaningful and understandable ways.

In its second edition, the Ward & Neighborhood Profiles Report demonstrates the Department's commitment to the effective use of analytics in a variety of ways.

- Data is provided at the citywide, ward, and neighborhood levels to help readers target their area of interest.
- Summary statistics of data are provided to help readers understand broader context and trends.
- Maps reflecting the data are created to help readers visually understand both frequency and geographic impact.

Critically important to our efforts is the commitment of the City of Minneapolis to use performance management as a tool to continuously improve the core services that it provides. The Ward & Neighborhood Profiles Report was made possible through the contributions of many individuals, with Quinn Carr leading the development, design and publications of the report, and Glen Haslerud and Fatuma Qorane assisting in the creation of the maps and narrative.
